## ***500x The Cash™***

### **Introduction**

Match any WINNING NUMBERS to any of YOUR NUMBERS to win the prize beneath the matching number within YOUR NUMBERS.

Find a Multiplier Symbol to win the prize beneath that symbol multiplied by that amount.

Find 3 Yellow tabs to unlock the WHEEL BONUS or 3 Pink tabs to unlock the EXPANDER BONUS.

### **Start the game**

You can choose to play between 5 and 15 tickets. Each of the Numbers within the YOUR NUMBERS section is a ticket.

Select the number of plays and the cost per play. Your total cost equals the number of plays multiplied by the cost per play and will be displayed below TOTAL COST.

After selecting the number of plays and the cost per play, press PLAY or press the Spacebar on your keyboard to purchase the tickets and start the game.

Once the PLAY button has been selected the TOTAL COST is deducted from the current balance and the game starts.

### **End of the game**

At the end of the game, any winnings for that go are displayed in the TOTAL WON panel.

To play again press the PLAY button.

### **How to play**

Press the REVEAL ALL button to reveal all tickets at once.

Or press each of the symbols separately to reveal each in turn.

## Wheel Bonus

Revealing 3 yellow tabs in YOUR NUMBERS section unlocks the WHEEL BONUS Game.

Spin the wheel to win the multipliers that stop in the WIN ZONE at the end of the spin. If all 3 segments that stop in the WIN ZONE are the same colour, level up to the next wheel and spin again.

The game ends when the wheel stops and all 3 segments in the WIN ZONE are not the same colour. At this point the cost per play is multiplied by all multipliers collected during the WHEEL BONUS Game and that prize is awarded.

## Expander Bonus

Revealing 3 pink tabs in YOUR NUMBERS section unlocks the EXPANDER BONUS Game.

The game starts with a 2x2 grid of Blue Flip Again tiles. The 4 tiles flip to reveal a symbol. This constitutes 1 Turn

Symbols that can be revealed are as follows:

- Prize Multiplier - this gets added to the MULTIPLIERS TOTAL WON in the bottom right corner
- Blue Flip Again Symbol - this flips the tile again in the next round (the next Turn)
- Right Arrow - this adds new tiles to the right of the grid which are then revealed in the next Turn
- Left Arrow - this adds new tiles to the left of the grid which are then revealed in the next Turn
- Up Arrow - this adds new tiles to the top of the grid which are then revealed in the next Turn
- Down Arrow - this adds new tiles to the bottom of the grid which are then revealed in the next Turn
- +1 - this adds 1 once to any Prize Multiplier already revealed on the board
- +2 - this adds 2 once to any Prize Multiplier already revealed on the board
- Lightning Symbol - this adds 1 to any Prize Multiplier on the board every Turn until the game ends

The game continues until there are no Blue Flip Again Symbols on the board and all power ups have been applied at which point the cost per play is multiplied by MULTIPLIERS TOTAL WON figure and awarded.

- Number of plays – total number of games that will be played at the current TOTAL COST.

- Single win limit – auto play will stop when a single win exceeds this amount, which can be set as a multiple of your TOTAL COST per play. If you don't want a limit, simply select the 'infinity' symbol at the end of the row.
- Once you have defined your settings of choice, press 'START AUTO PLAY' to start your auto play session at the currently selected TOTAL COST (which is the individual TICKET COST per play multiplied by the number of TICKETS).
