Mega Drop

- Mega Drop consists of three Progressive Jackpots, these are the Minor, Major and Epic jackpots.
- For each spin, a proportion of the player's total bet is contributed towards the Progressive jackpots.
- The Mega Drop jackpots each have payout values before which they must drop. By the time the Progressive jackpot reaches its maximum payout amount it will have been awarded to a player.
- Progressive jackpots can also be awarded on any wager.
- When a Progressive jackpot is awarded, the jackpot amount is reset to a reseed value of approximately 25% of the value paid out.
- It is not possible to be awarded more than one jackpot with a single wager. If more than one jackpot is won with the same stake, the jackpot with the higher maximum drop value will be awarded.

- There exists theoretical scenarios where the jackpot drop amount may slightly exceed its expected drop value.
- Progressive jackpot balances are displayed in the game, and are updated only when awaiting user input. The jackpot balances update at least once per 2 seconds during this state.
- Although progressive jackpots can be won on any stake, the higher the stake, the greater chance.
