Wagering Requirement Rules

- A wagering requirement is a condition applied to a Token and affects how a player is able to spend the winning generated by that Token.
- The PlayNow Bonus Game Prize Token has a thirty times (30x) Wagering Requirement:
 - For example, if you have won a \$50 Token, then your wagering requirement would be: $\$50 \times 30 = \1500 , $\$50 + \1450 play-through of winnings = Wagering Requirement
- The wagering requirement is met when a player wagers the value of the Prize Token and winnings from that original token on eligible games, adding up to thirty times (30x) the value of the Prize Token.
- Until the wagering requirement is met, any winnings generated from the Token will be deposited in your Held Funds account. You can play eligible games with Held Funds but you cannot withdraw them for a Cash Balance from your account.
- Once the wagering requirement is met, and Held Funds remaining will be transferred to your Cash Balance and can be withdrawn from your account or used on any game on PlayNow.com
 - See [Understanding Wagering Requirements PDF](#) for more information.
